FIG.44

GHG EMISSIONS BY SECTOR IN THE EU-27 IN 2019

Source: European Environmental Agency

Industry 20%

Agriculture 10%

Residential and commercial 12%

International aviation 3%

International shipping 4%

Energy supply 25%

Waste management 3%
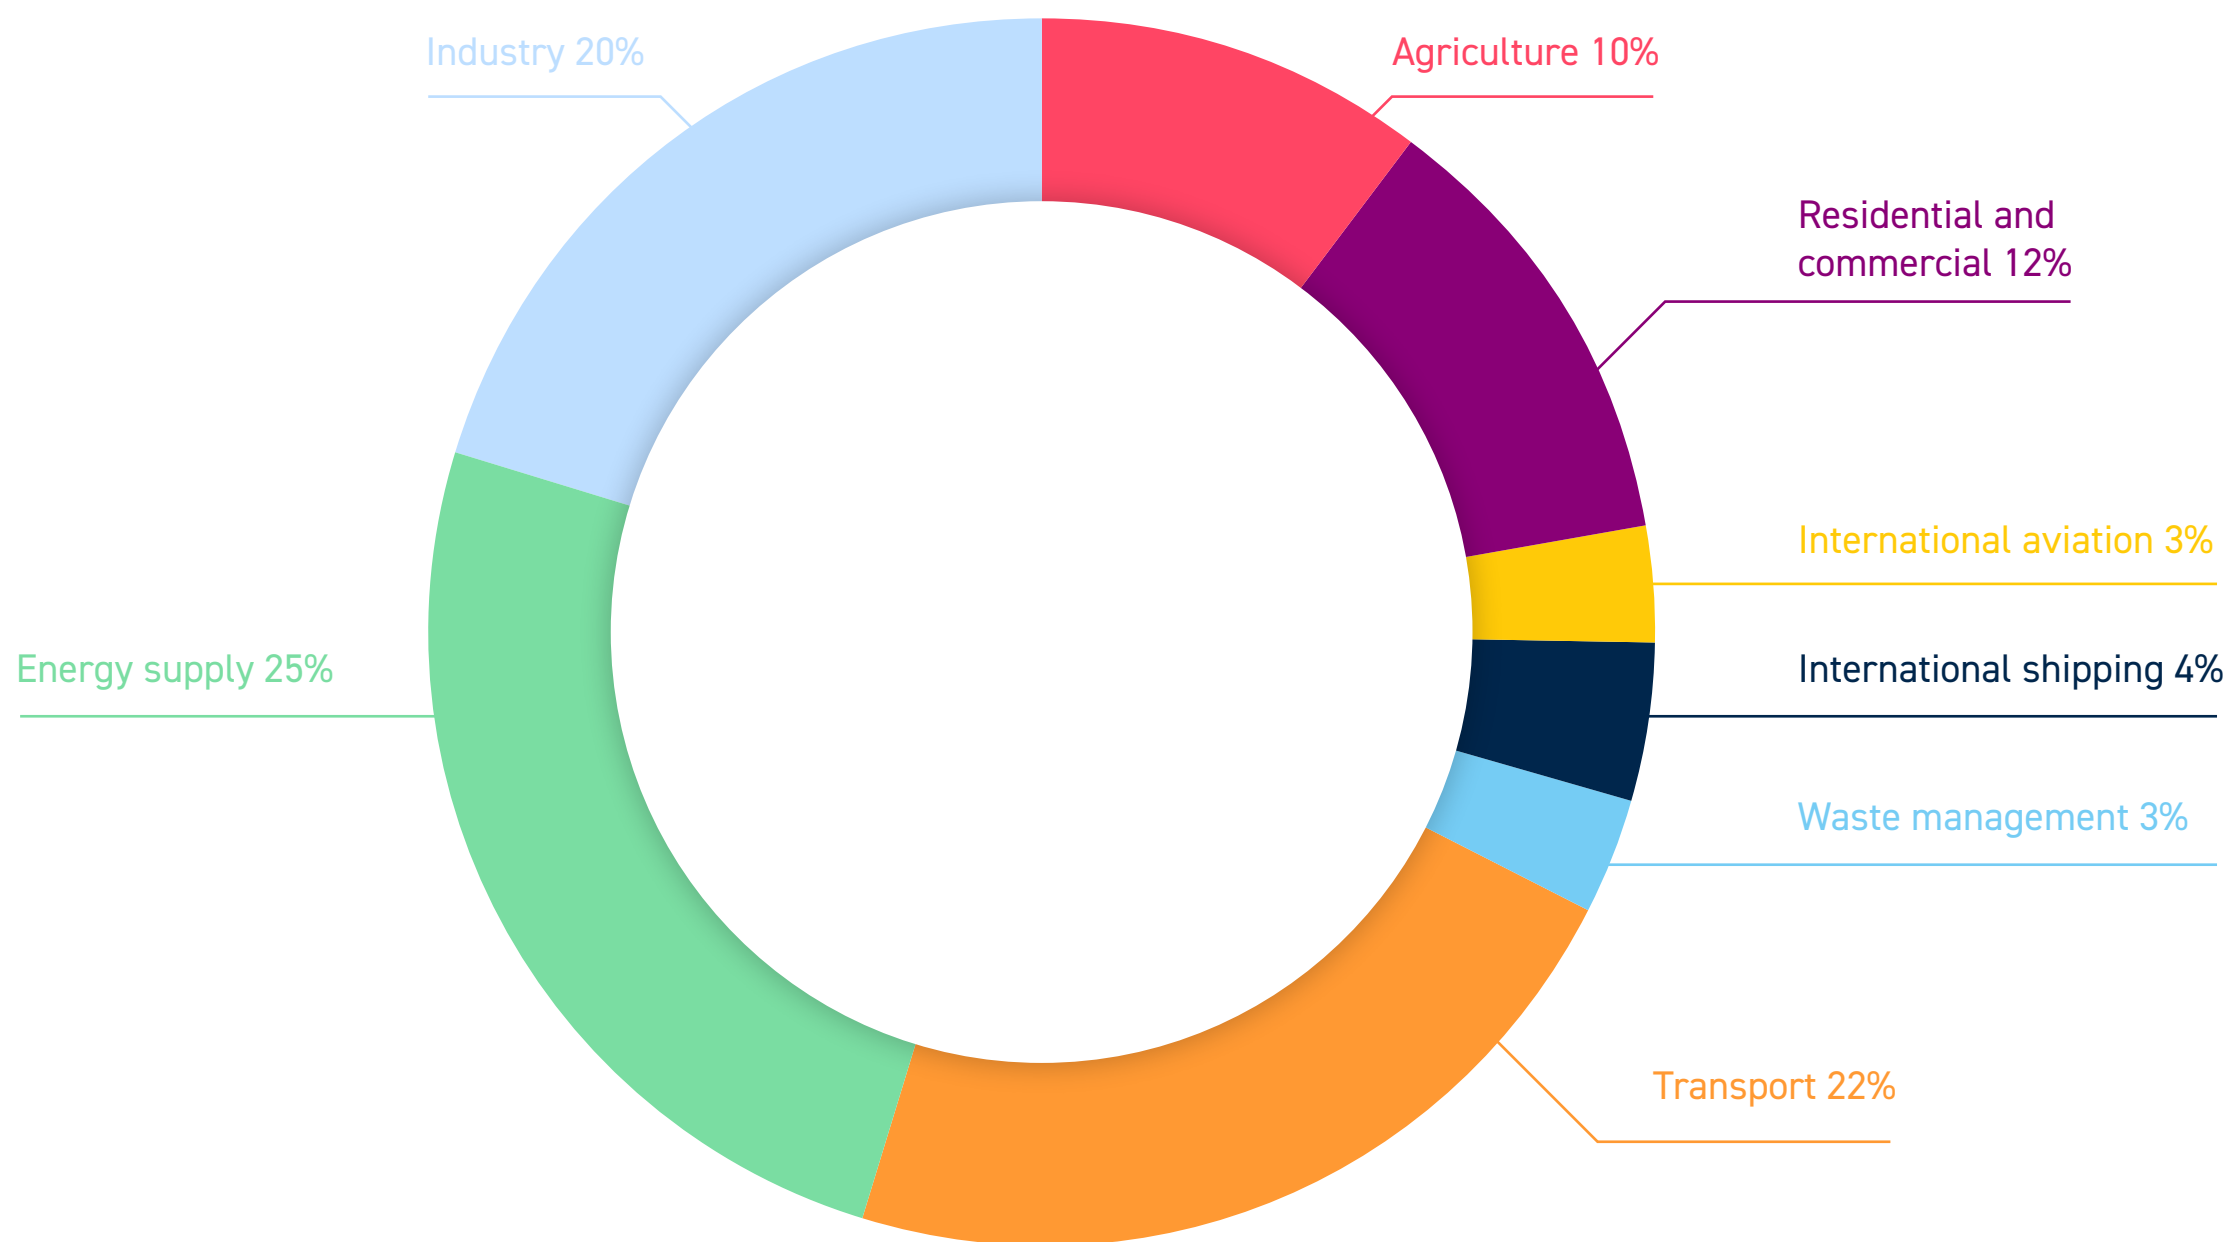

Transport 22%

Energy supply and industry accounted for 45% of total GHG emissions in the 27 EU Member States in 2019. Transport, including international shipping and aviation, generated 29% of EU GHG emissions.
