ELECTRIC VEHICLES AS A PROPORTION OF THE TOTAL FLEET IN THE EU-27

Source: European Environment Agency

Considerable progress in the uptake of electric cars and vans in the EU was made in 2022, with 21.6% of new car registrations being electric vehicles. Totalling close to two million electric car registrations in one year, up from 1,74 million in 2021. In the last year, the number of newly registered battery electric vehicles increased by 25% while the number of plug-in hybrid cars remained stable.

Note: The chart reports the number of electric vehicles (battery electric vehicles - BEV and plug-in hybrid electric vehicles - PHEV) newly registered in EU27_2022

- 'Share of electric vehicles' refers to electric vehicle registrations (BEV and PHEV) as a percentage of the new cars' registration.
- Non-plug-in hybrid electric vehicles, which are exclusively fuelled by conventional fuels, are not included in the data shown.
