

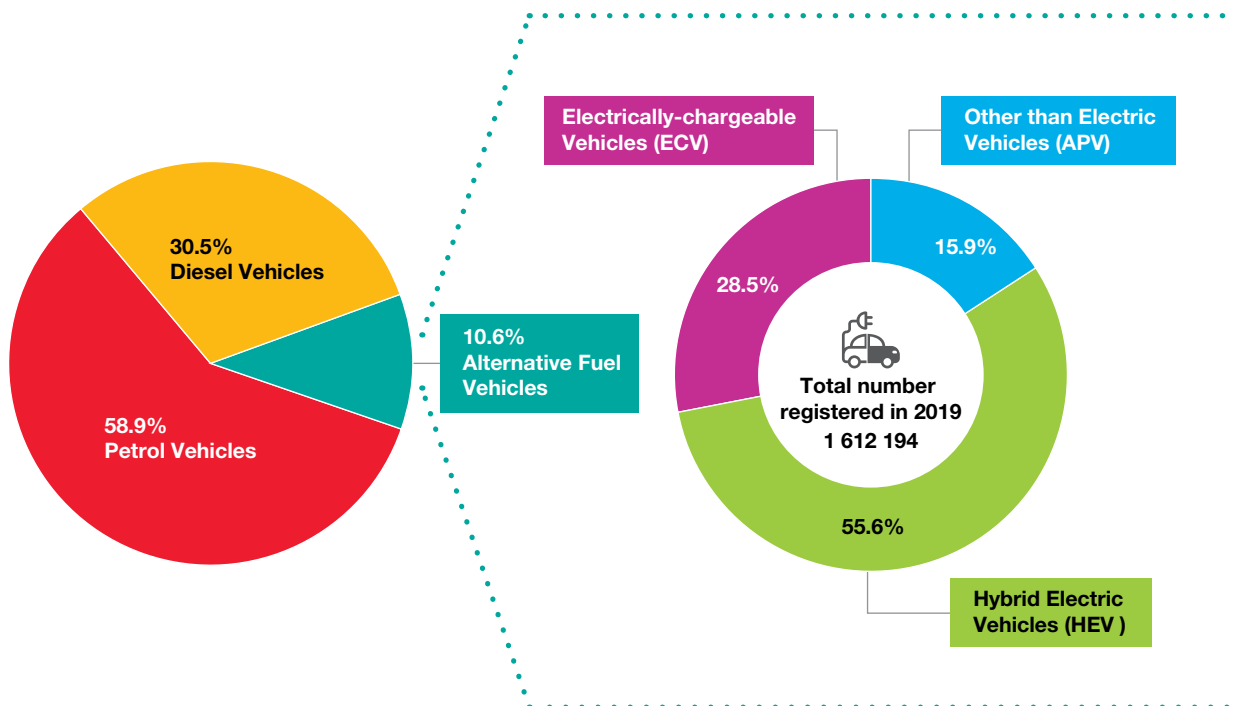

FIG.45 ALTERNATIVE FUEL VEHICLES ACCOUNTED FOR 10.6% OF TOTAL PASSENGER CAR REGISTRATIONS IN THE EU IN 2019

Source: ACEA

Overall in 2019, more than half of all new passenger cars registered in the EU ran on petrol (58.9%, compared to 56.6% in 2018). Diesel vehicles accounted for 30.5% losing 5 percent point market share compared to 2018. The number of alternative fuel vehicles has been steadily increasing reaching 10.6% in 2019.

Note: Please note that due to rounding, figures may not add up exactly to 100%.
