

FIG.53

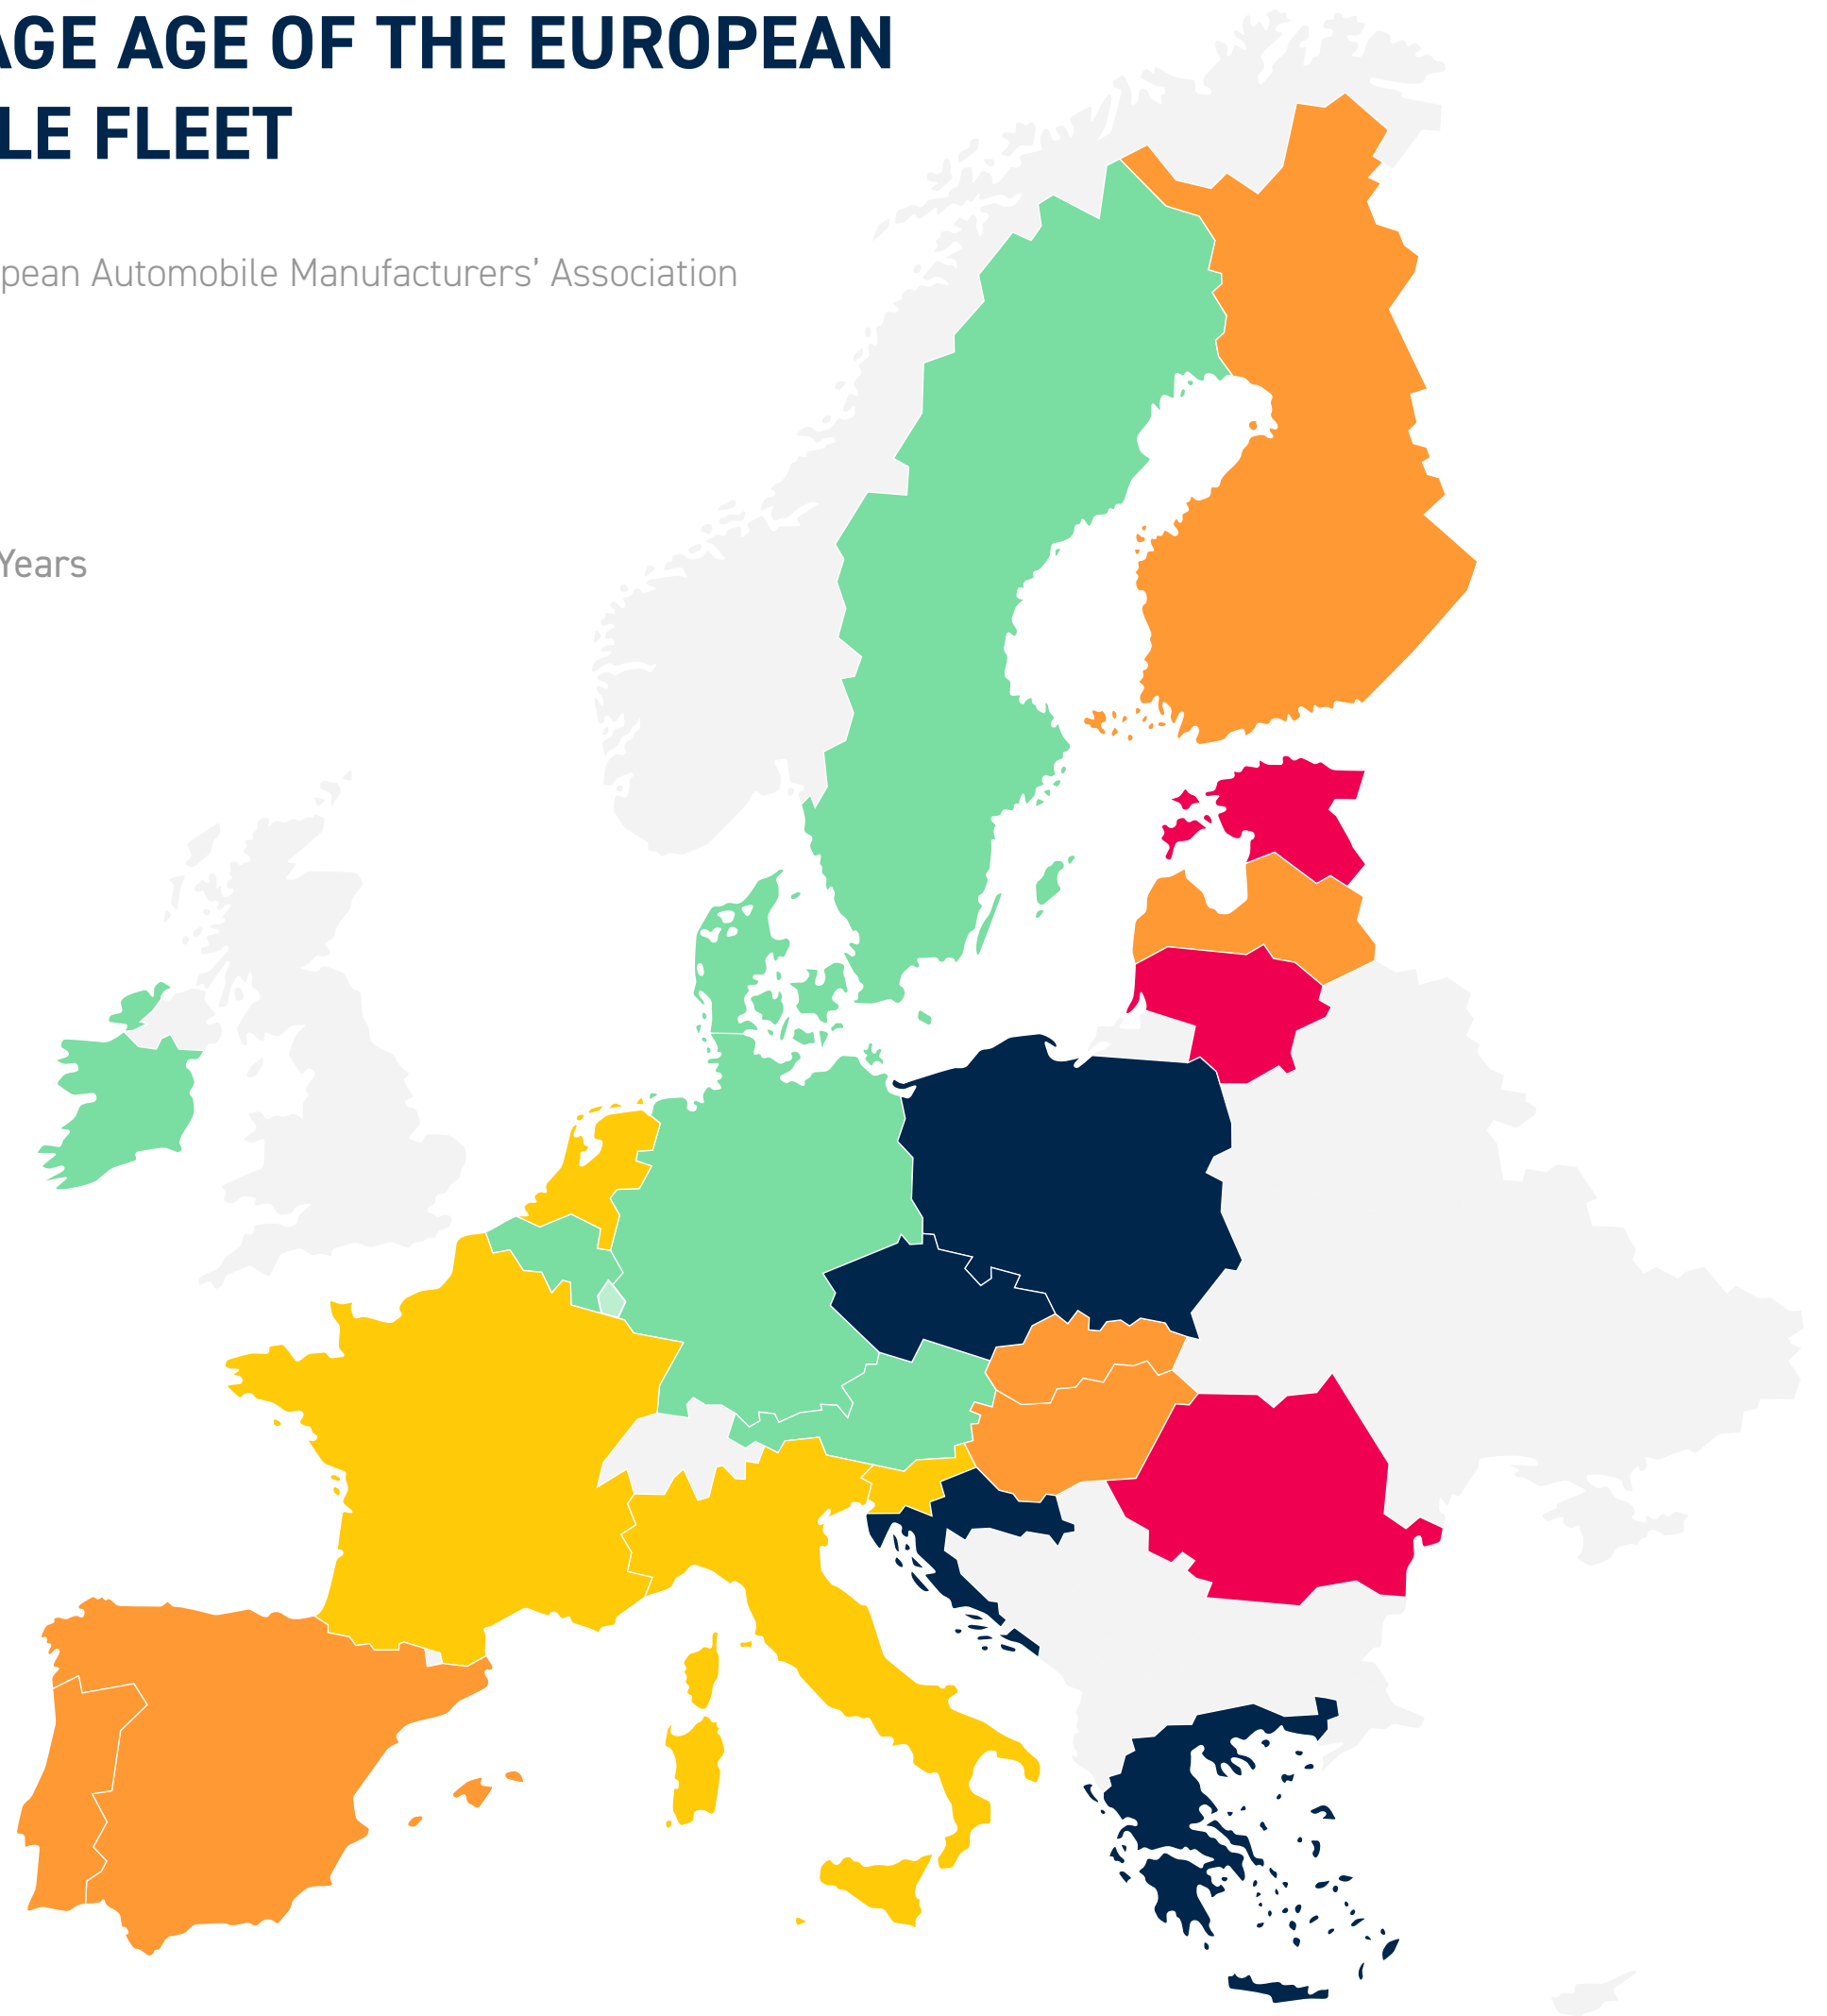

AVERAGE AGE OF THE EUROPEAN VEHICLE FLEET

Source: European Automobile Manufacturers' Association

6 8 10 12 14 16 18 Years

No information/Not regulated

The age of the vehicle fleet can differ greatly across European countries with an average age of 6.5 years for Luxemburg and 16.8 years for Lithuania. In Eastern and Southern Europe, where citizens cannot necessarily afford buying new vehicles and depend on the second-hand car market, passenger cars will stay on the road longer and will need solutions for decarbonisation.
