

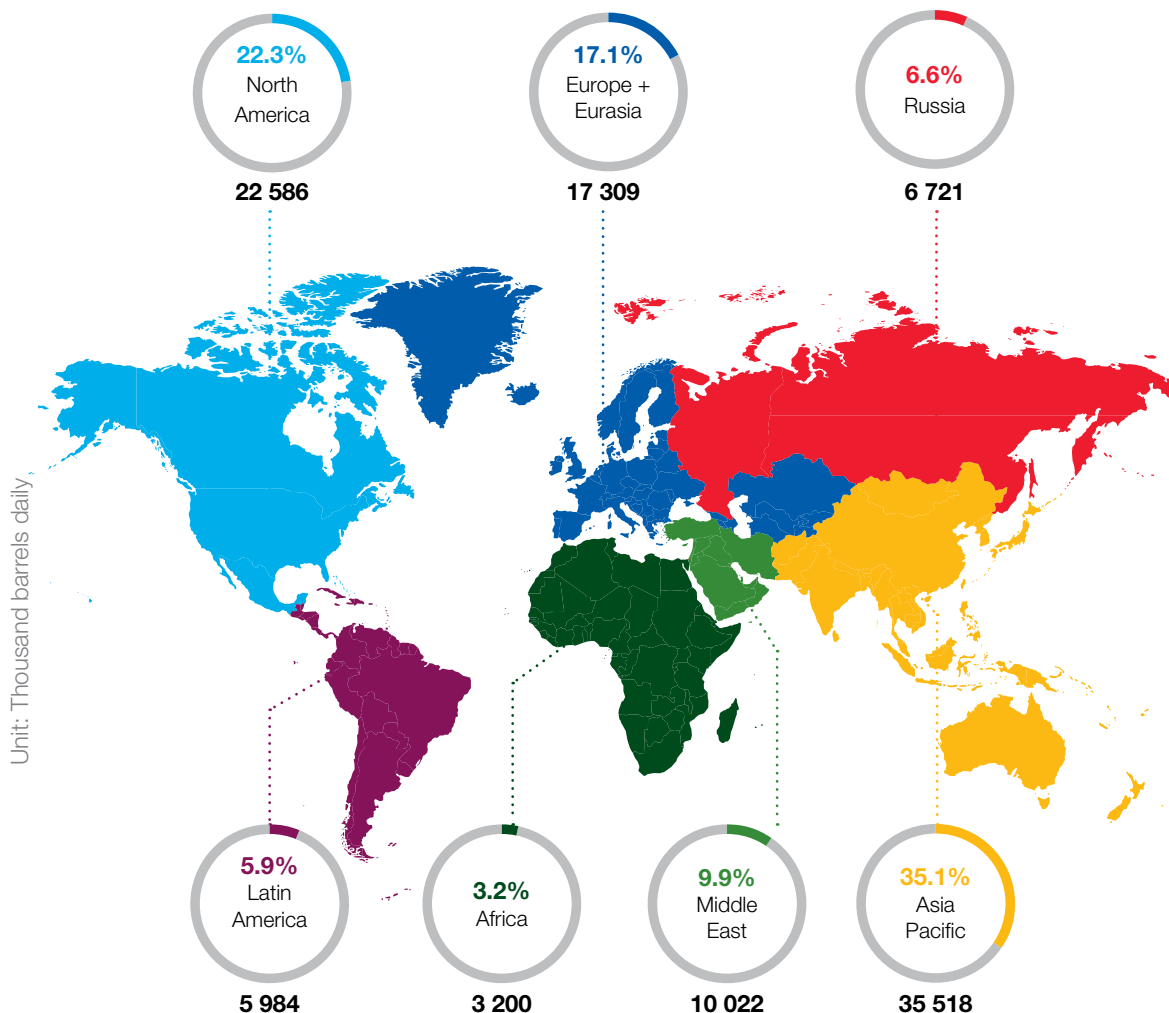

FIG.24 GLOBAL REFINING CAPACITY

AS OF 2019

Source: BP Statistical Review of World Energy 2020

Refining is spread around the world and a truly global business. The share of Europe and Eurasia (excluding Russia) has declined by -0.2% compared to 2018. At 17% the region remains third

largest for refining, behind Asia Pacific at 35% and North America at 22%.
