

FIG.27 OPERATIONAL LOW-CARBON PROJECTS IN EUROPE

Source: FuelsEurope

- Low-Carbon Liquid Fuels operational projects
- Low-Carbon Technology operational projects

Up to May 2021, there were 23 low-carbon projects operational across Europe. These projects - ten low-carbon technologies projects and thirteen low-carbon liquid fuels projects - are helping

the EU achieve its climate goals. You can visit our cleanfuelsforall.eu website for regular updates on the map and more information about each project.
