Threshold > 30 kbbd/d or 1.5 Mt/a

In December 2020, there were 77 'mainstream' (capacity above 30 kbbd/d or 1.5Mt/a) refineries in the EU-28, Norway and Switzerland.

Note: The threshold data used as basis for the FuelsEurope Statistical Report was lowered from 50 kbbd/d or 2.5Mt/a to 30 kbbd/d or 1.5Mt/a. As a result, 3 refineries were added to the total (1 in Croatia, 1 in Italy and 1 in Romania).
